

# Christ the Redeemer Catholic Schools – Dual Busing

---

What is dual busing? Dual busing is when a student is granted a seat on more than one bus on a regular basis. For example, if a student rides route #1 from their home to school in the mornings and then rides route #2 from school to their babysitters in the afternoons.

Please note the following:

1. Dual busing will be granted providing there is a seat available on the requested bus. If the school bus is full we cannot provide a seat for a dual rider;
2. Dual busing cannot be applied for until after September 21<sup>st</sup> of each school year. If you are applying for dual busing at the beginning of the school year, you will need to make alternate arrangements until such time as your request can be considered.
3. Dual busing does not carry over from year to year. At the end of each school year all dual busing will be discontinued and you must re-apply after September 21<sup>st</sup> of the following school year.
